Ana Quirosa

Web Developer

SUMMARY

Developer with specialised experience in Frontend, focusing on creating intuitive and responsive web applications. Currently, I'm expanding my skills in Backend development and learning about DevOps to become a versatile and comprehensive Full-Stack developer.

EXPERIENCE

07/2022 - Current | **Co-Founder / Developer** Headintheclouds

- Development of web applications using **HTML, CSS** (Bootstrap) and **JavaScript** (jQuery).
- Usage of **React.js** to create dynamic and interactive user interfaces
- Build **RESTful APIs** with **Python** and **Node.js**.
- Utilisation of **AWS** services (S3, CloudFront, Route 53, ACM) for deploying static websites.
- Active use of **Git** for version control and collaboration in development teams.
- Writing blogs on topics realted to technology and web development.
- Creating **Youtube** videos covering different topics in Web Development and DevOps to facilitate learning and understanding.

07/2022 - 04/2023 | **Web Content Manager and Developer** Srta. Rottenmeier Estudio de Arquitectura

- Development of the website using **HTML**, **CSS** y **JavaScript**.
- Maintentance and management of the website through **WordPress**, including **debugging** and problem solving.
- Collaboration with other developers to ensure the website effectively communicates the brand message and achieves business goals.
- Creation and design of high-quality visual content using **Adobe Creative Suite** and **Figma**.
- Analysis and interpretation of **Google Analytics** data to track traffic, engagement, and **SEO** performance.

01/2020 - 06/2020 | **UX/UI Designer** UCAM Universidad Católica San Antonio de Murcia

- Design, development and testing of **UI** for mobile and web applications.
- Collaboration with other developers and departments to ensure the correct implementation of design, aligned with the university's objectives.
- Researching and analyzing user needs to develop **sketches, prototypes, and user flows** that align with user expectations and the university's objectives.

SKILLS

Technologies & Integration

HTML5, CSS3, JavaScript (ES6)

Bootstrap5

JavaScript Libraries: jQuery

ReactJS

RESTful API

AWS: S3, Route 53, CF, ACM.

Development Tools

Visual Studio Code

Chrome DevTools

GIT

Command Line Proficiency

Design and Prototyping

Figma

Adobe Suite: Photoshop, Illustrator, Indesign, Premiere

Web UI Design

UI / UX Design Principles

Responsive Design

Graphic Design

Photography

Videography

SOFT SKILLS

Problem Solving

Effective Communication

Adaptability

Continuous Learning

LANGUAGES

100

Spanish
(Native)

75

English
(Upper-intermediate)

EDUCATION

2020 2021 — **Masters Degree in Graphic Design**
CEI Escuela de Diseño

2015 2020 — **Tourism Management with mention in Advertising Management and PS**
UCAM
